2024 PROPANE TANK PRICES

New	1,000 gallon Underground Propane Tank	\$6,995
New	1,000 gallon Above Ground Propane Tank	\$5,995
New	500 gallon Above Ground Propane Tank	\$3,595
Reconditioned	500 gallon Propane Tank	\$2,995
"As Is"	500 gallon Propane Tank	\$2,495
"As Is"	330 gallon Propane Tank	\$2,295

Tank installation	\$295.00 flat rate. Includes delivery and any exterior labor
High pressure gas line	\$3.50 per foot
Transition riser for gas line	\$85.95 - \$185.95 (Not all installations require risers)
Tank base blocks	\$8.50 each (minimum of 4 required)
Dielectric Union (if needed)	\$41.10
Cathodic Protection Kit	\$495 *Only required for underground tank installation

New, reconditioned and "as is" tanks are sold with a high and low pressure regulator.

All tanks have a five year warranty on all valves, regulators and tank fittings.
New tanks have a 30 year structural warranty.

Reconditioned tanks have been sand or shot blasted, painted and leak tested.
"As Is" tanks have only been leak tested, not sand blasted or painted.

Due to weather constraints, we typically schedule installations between May 1st and November 15th. Any winter installation is temporary and will require a return visit to complete the project when weather permits. Any return visit is subject to labor and additional material charges

If you have an existing high pressure gas line it may be used subject to the gas line passing a pressure test.

We use 4x4x16 solid concrete blocks as tank "base blocks".
We cannot substitute customer supplied "webbed" blocks or any solid block with a thickness of less than 4 inches for use as a tank base.

All tank sales require that Gasco provide the first fill after the tank is set.

You will be quoted a firm price per gallon for the first fill when the tank is scheduled for installation. The firm price per gallon only applies to installations made within 30 days of the scheduling date.
